

WING

ACADEMY

Description

The Wing Academy is an exclusive, invitation-only series for startup founders and CEOs to learn on critical, company-building topics. The academy features curriculum—not speeches or panels—and is delivered through a combination of frameworks, templates, war stories, and interactive dialogue. The instructors include seasoned, successful leaders, and the setting is closed-door and under Chatham House Rule. The academy is “HBS Executive Education” meets “B2B Entrepreneur.”

The Wing Academy on CEO Leadership in Market Uncertainty focuses on fundamental questions for founders and CEOs in the global pandemic: What are reasonable growth expectations for 2020? What is the best way to align your cost base with lower growth? How do you lead your teams through difficult decisions? What are the best ways to build morale in a work-from-home world?

Logistics

June 18, 2020
10:00am – 11:00am Pacific
Zoom

Agenda

10:00am - 10:30am Pacific | Fireside Chat with Dev Ittycheria
