

## Wing Private Dinner at Black Hat 2019

### **Description**

The Wing Private Dinner at Black Hat 2019 is an exclusive, invitation-only meeting for senior executives to discuss and debate what's next in security, privacy, and trust. The dinner features a table-wide, moderated discussion based on pre-event participant feedback and on Wing's research.

The setting is closed-door and off-the-record. Members of the press are not permitted to attend.

### **Logistics**

Rajeev Chand, Partner and Head, Research, Wing Venture Capital (moderator)

### **Discussion Topics**

- How are we doing as an industry on preparedness. On a scale from 1 (unprepared) to 5 (prepared), how prepared is your company to respond to a Capital One-like breach?
- What exactly was the nature of the Capital One breach?
- Are consumers so numbed to breaches that the implications are limited-to-none over a short period of time?

## **Discussion Topics (cont.)**

- Should cloud providers like Amazon be responsible and/or liable for vulnerabilities such as server misconfigurations?
- What privacy regulations will be passed in US next, and what are the implications to companies' digital transformation and competitive advantage?
- What do you see as delivering value now in AI/ML for security?
- What are practical lessons on cloud migration path and governance?
- What are some of the key considerations in setting and securing cyber insurance?
- What one action can we as a CISO community take to disarm and neutralize ransomware at scale? Or, are we left to relying on state-level organizations?
- What is your advice & reflection to CISOs now that you are outside of the seat?
